<http://www.laundrymachines.org/>

We are at the vanguard as Manufacturer, Supplier, Trader and Retailer matchless quality Washing Equipments and Stabilizer. Our line of products features the benefits of modern design and maintenance free service life.

## About Us

The industry leading Manufacturer, Supplier, Trader and Retailer entity, **Aadhava Power Industries** was established in the year **2011** and has been producing high performing Washing Equipments and Stabilizer to a large clientele. We hold the strength of operational perfection and manage to provide a wide variety of modern day devices, which includes Washing Equipments, Industrial Washing Machine and Washing Machine. We attempt to become receptive to our esteemed customers, by supplying a large range of advantageous product characteristics such as innovative design, user friendliness, low noise performance, maintenance-free service life and competing costs.

Our products design and features are meant on the customers' anticipation, which we approach by conducting the rigorous market analysis. Further, our relentless focus to research and innovation encourages us towards the preeminent positions, where we generate products with superimposed profitability for our esteemed customers. Our mission is to provide cost-effective products under the brand name "Servo" to a mix of custom integration and hospitality segment, and we do this by comprising the variegated requirements of our esteemed clientele.

Under the valuable guidance of **Mr. Nagarajan M**, we thrive as a truly integrated organization, working with a single purpose to manifest client-centric strategy in its offered products and services.
